

ABOUT US

Paws for Pals is a humane animal shelter dedicated to the rescue of lost, injured and abandoned animals. Our mission is to provide rehabilitation to these animals before sending them back into the world. We strive to find a loving and stable home for every animal that comes into our care. In return, we hope to bring joy to every household by introducing them to their newest best friend. Paws for Pals was established in 2020 after a group of stray kittens was found on the side of a freeway overpass. Our founder brought the kittens to local animal shelters -- all of which had to turn the kittens away because of max capacity. Animal shelters are faced with the issue of wanting to open their arms to more animals while also not having the means to provide sanctuary. Paws for Pals is a small, local shelter in Orange County, California that opened to combat the rising numbers of animals in need of shelter. We are a non-kill shelter that takes in all domestic animals--from cats, dogs, birds, bunnies.
